Re: Hurricane Harvey - Prescription Medication Coverages
Governor Greg Abbott issued a proclamation declaring a disaster
due to the effects of Hurricane Harvey. The proclamation directs
that all necessary measures, both public and private, as
authorized under §418.017 of the Texas Government Code, be
implemented to meet that threat.

President Donald Trump issued a major disaster declaration and
ordered federal aid to supplement state and local recovery efforts
in the area affected by Hurricane Harvey.

With the relocation of hurricane victims and other personal
hardships sustained by residents of counties covered in the
governor's proclamations, regardless of where those residents
have temporarily relocated, many insureds, enrollees, and
certificate holders will be away from their residence locations and

health care service areas. It is the opinion of the Texas Department of Insurance that all health insurers and health maintenance organizations that provide prescription medication coverage as part of any policy, certificate, or evidence of coverage should, through the duration of the governor's proclamations, authorize payment to pharmacies for up to a ninety day supply of any prescription medication for individuals regardless of the date upon which the prescription had most recently been filled.

HUPAC - You can make a difference

HUPAC is the political action committee of the National Association of Health Underwriters (NAHU). It is the expression of our First Amendment rights to free speech and association guaranteed under the Constitution. Such political expression has become far more than a useful option for professionals in a heavily regulated business like the health insurance industry. It has become a necessity.
